About Amahi Ukuleles

Amahi Ukuleles, a division of Amati's Fine Instruments, was founded in 2013 and strives to provide high-quality products at an affordable price. These products are created to ensure a level of quality that is as attractive to the eye as to the ear, while maintaining excellent relationships with past, present and future consumers.

Our approach to design is simple: each ukulele begins with the goal of improving the overall tonal and intonational properties of the instrument, as well as its visual appeal and playability. All individual designs begin with a careful selection of the type of wood for its tonal properties and beauty. Next, the ukulele's binding is selected for function and improvement in the overall look of the instrument. Every fretboard on our intermediate, as well as our advanced ukulele lines, are bound the same way as a guitar fretboard. The binding provides an overall wider area, resulting in increased comfort for hands, regardless of size.

Amahi Ukulele's craftspeople professionally set up and adjust our ukuleles in Cincinnati prior to supplying our customers throughout North America with a high-quality product. Amahi carries a complete line of instruments, from decorative, entry-level soprano ukuleles to beautiful, high-end ukuleles for more serious musicians. Since its origin in 1995, Amati's Fine Instruments' family-run business has persisted in the business of providing consistent solutions that save customers time and frustration when it comes to music.
